

Q

Is your hotel, bar or restaurant lit with 35 W halogen downlighters ?

If so, 30 Watts are being unnecessarily WASTED !

A

Replace with the NEW 5 W Antares bulb from Greenled Light

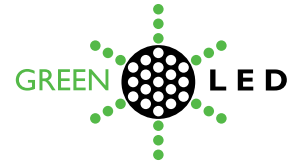

"Greenled's lights are saving us £2,500 a year already and will save us £16,000 p.a. once the whole hotel is converted"

"You cannot say No – they genuinely replace the 35 W halogens and the cost savings are so good they pay for themselves"

Steve Day, Facilities Manager
Blunsdon House Premier Hotel, Swindon

- Available in low voltage MR16 or mains GU10
- Last for 40,000 hours - guaranteed for min 2 year
- Fully CE and RoHS approved
- Warm white or cool white options
- SAVE 85% electricity running costs
- SAVE on constant maintenance costs
- SAVE on cost of holding stock
- Sustainable and Carbon reducing
- No disposal required
- Recyclable

Introduction to Greenled Light Ltd

HIGHLY SUSTAINABLE:

Greenled is committed to replacing inefficient and wasteful lights (such as halogen and incandescent) with lights that contain new-age high brightness LEDs, contain no mercury and are made from recyclable materials.

HIGHLY ENERGY EFFICIENT:

Greenled is committed to saving customers' money (and carbon emissions) by supplying lights which use at least 85% less energy than halogens and 50% less than CFL technology.

BUILT TO LAST:

Greenled lights last for a very long time – over 40,000 hours – and they are performance guaranteed for a minimum of two years.

INNOVATION and DESIGN:

Greenled combines state-of-the-art design with high performance solid state lighting technology. Today it is primarily downlighters, spotlights, under-cabinet and low-bay lighting. Shortly Greenled will introduce lights to transform your office, brighten your home and illuminate car-parks and outdoor spaces.

TESTED:

Greenled's promise is that every device is independently tested, CE approved, and ROHS compliant.

CUSTOMER APPEAL:

"We have searched for LEDs for months and looked at everything on the market. Nothing comes close to Greenled's light output and colour" Steve Day, Facilities Manager, Blunsdon House Premier Hotel, Swindon

SAVING MONEY WITH GREENLED

The Halogen/Greenled Comparison

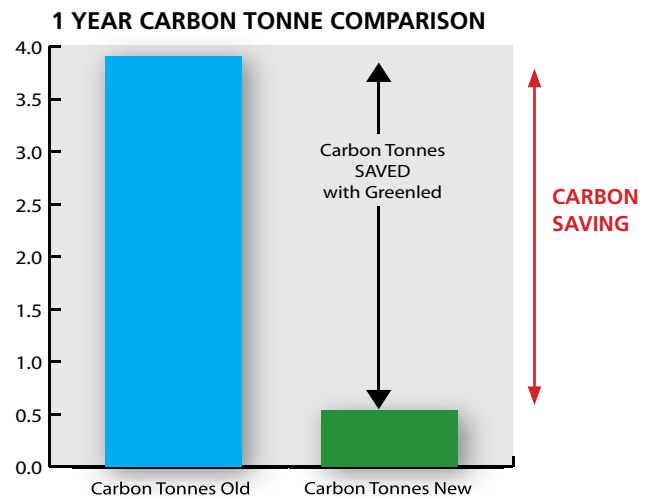

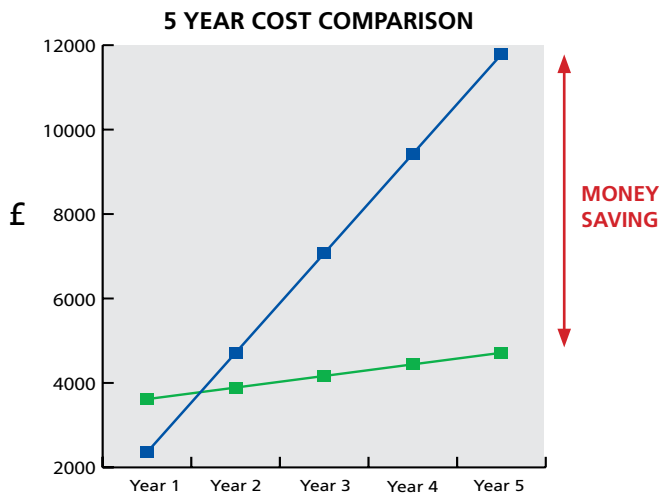

This family run hotel is saving £2,000 pa already by working with Greenled and is going to save over £6000 over the next five years. In a period when electricity prices are rising the Greenled solution which minimises energy use is welcomed AND it saves labour costs, reduces heat and fire hazards.

HOTEL - Example of Usage							Annual Halogen / Greenled Comparison			
	Lamps Bulbs	Annual Hours	Halogen wattage	Halogen KWhrs	Greenled wattage	Greenled KWhrs		Halogen	Greenled	SAVINGS
